

CUSTOM GOLF

CATALOGUE
OF GOLF BAGS

Dear Golf Fan,

Golf is my passion as many of you already know. Since 2006 I have been traveling as a golf professional across the world competing against the best players on various tours.

One knows, the lower the handicap the more important the equipment/material becomes. This is also true for myself. That's why I am focusing to improve clubs, shafts, ball, cloth, etc.

I have to feel confident and comfortable on the golf course. A good looking and functional golf bag, where I store all my "tools" is therefore very crucial and an integral part to success.

In addition to the right colors and fabrics of my golf bag, quality and being able to present all my sponsors the way I like is essential. The chance to do so, is a wish of many professional but also amateur golfers.

Together with a former tour player and colleague I teamed up to cater to all those personal styles, colors and logo placing wishes. Furthermore it is great to help out companies, teams and clubs to create their personal golf bag with names, flags and individual logos promoting their brand.

To feel confident is one thing but to carry a golf bag that is one of a kind is lots of fun. If you wish to send us your ideas via email or by order form we are more than happy to design a digital image to show you how your future golf bag could possibly look like.

Please contact us with any questions. We are happy to provide you with an individual consultation and more detailed information.

A handwritten signature in black ink that reads "M. Rominger". The signature is written in a cursive, flowing style.
